Isla POLITICAL ECONOMY.—Just published:

A NATIONAL SYSTEM OF POLITICAL ECONOMY.

By FREDERICK LIST.

Translated from the German by G. A. MATILE, Doctor of the Civil Law, late Professor of Law at Newtoniel, Member of the American Philosophical Society, etc.

With a Preliminary Essay and Notes by SYRPERES COLWELL.

Complete in 1 vol. ectave, 477 pages. Price \$2.

The grand characteristic of List's system is nationality. His edifice is built upon the idea of nations as they are, "Thus nationality is the railing idea of his book; but with his vigorous mind and clear intelligence he enlarges it until it comprehends every topic of human welfare.

"It is this very idea of nationality which leads him who has done so much for commercial liberty to the restrictive system. With him liberty is the end to which man must tend, but which cannot be reached at a bound, and should not be reached without carrying human weifare with it.
